

## Dividers for The Charger Plate Crate

1

Hold one panel with slots facing up and insert another panel with slots facing down.

2

Repeat step 1 with a second panel. Ensure slots are following the guides.

3

Repeat step 1 with a third panel.

4

Carefully turn over your assembly.

5

Insert another two panels into your assembly.

6

Carefully pick up your assembled Dividers and place into your Charger Plate Crate.

7

Your Dividers for The Charger Plate Crate is Assembled! Don't forget to try other configurations like using one panel as a simple divider or put together two panels to hold vases.
